REAL SHIN PLASTER (CUT FROM SHINBONE) TO MEND BROKEN BACK

Man Pronounced Hopelessly Incurable Expected to Recoves After Operation.

After having been pronounced a hopeless incurable by doctors who had been treating him for the last two months, Raphael Angeli was carried to the operating room in Fordham Hospital yesterday. There the afth vertebra, which was fracured, was removed and a section of one of his shinbones was formed into the shape of the vertebra and placed in his spine.

The operation was performed Prof. Alexander Nicoll, assisted by Drs. Dolan, Abearn, Sheridan and Math. Witnessing the operation were several students from the Fordam University Medical School.

Since he was taken to the hospita Angell, who is twenty-four years old, living at No. 3128 Villa avenue, has been paralyzed. He could move no ole of his neck, and the doctors feared that if he sneezed or coughed hard it would end his life.

Before removing the broken verte bra. Prof. Nicoll had sawed through the periosteum, or tough fibrous membrane surrounding the tibla or hinbone, and taken out a section neasuring three inches by threewarter inch, which was moulded to the required shape. This was then put in place and fastened to the fourth and sixth vertebrae. The pa-tient was on the table two and a half hours, and at the conclusion of the operation Prof. Nicoli and his assis-tants agreed there was no reason why Angeli should not recover, although it is likely his spine will always be etif.

TORONTO, Peb. 21.—The Rev. James T. W. Williams, a former Congregationalist paster at New Castle, Pa., who was arrested here yesterday with Mrs. George Thomas, with whom he was alleged to have cloped, was to-day remanded to the care of Canadian immigration officials at Niagara Falls. He will probably be tried for entering Canada under false pretenses.

Mrs. Thomas was placed in custody of her husband, who had followed the pair from New Castle. Williams, it is said, has a wife and family.

"It must be interesting to be a woman these days," ended Mr. Irwin warmly. "It can't help but be interesting to feel one's self a part of something that grows and develops."

But I know, as Mr. Irwin dodsn't, how much development is necessary for most of us, and how, for many, growth toward the honorable ideals of a gentleman hasn't even begun.

Dr. Knowiton said the prescription was quite usual, and although his instructions were disregarded, he would not expect death to result from the morphine. He believes the autopsy will show death was from pleurisy.
